

D-Star Repeater in Japan

by JF1TEU

2009.05.09

When you call CQ via D-Star Repeater to Japan, set UR Call field like
"UR:/JP1YFYA"

You can not individually call (Don't write on Personal Callsign).

"RPT1:Use your local repeater port"

"RPT2:Gateway repeater callsign"

Step on the same procedure when responding from CQ Call from Japan.

And when you calling CQ via Japanese D-Star Gateway Repeater, announce your repeater's call sign with port name.

And, please repeat several times to write it down.

Example

UR :/JP1YFYA (/) is needed

RPT1:S55DLG C (C in 8th position)

RPT2:S55DLG G (G in 8th position)
